German business leaders in the U.S. and academic experts from the U.S. and Germany discuss opportunities for those interested in transatlantic academic exchanges and in careers at German companies in the U.S.

UAS7, an alliance of seven German Universities of Applied Sciences, in partnership with FH Münster, University of Applied Sciences as a UAS7 member, will bring its unique expertise in applied science education to University of Pittsburgh.

We invite undergraduate and graduate students to learn about a wealth of career and study options with German businesses and universities through Employability (made) in Germany.

Students can discover opportunities at German companies in Pennsylvania and throughout the states, as well as study, internship and research opportunities open to U.S. students in Germany. The small setting allows for learning about select companies in new ways and asking questions about expectations for interns and new hires. Rotating roundtable discussions will be followed by a networking hour. Drop in any time.

Traditional German snack foods will be available.

Program Overview

**Participating Universities**

**University of Pittsburgh**

The University of Pittsburgh, founded in 1787, is one of the oldest institutions of higher education in the United States and today ranks among the top U.S. public universities. Through its exceptional research strength, top academic programs, pioneering faculty, staff, students and alumni and relentless pursuit of its mission to leverage knowledge for society’s gain, Pitt makes a difference in the lives of individuals, communities and the world. pitt.edu

Participating departments include: Career Center, College of Business Administration, German Department, Pitt Study Abroad, School of Computing and Information, and Swanson School of Engineering.

**FH Münster, University of Applied Sciences**

FH Münster - University of Applied Sciences is one of the largest of its kind in Germany. More than 15,000 students are enrolled in Bachelor or Master degrees focusing on Business, Engineering, Social Sciences, Design and Architecture. Being the Germany’s first system-accredited University of Applied Sciences, FH Münster stands for excellent quality in teaching and research as well as for strong links with national and international industry.
