In a dynamic panel, a range of academic experts and German business leaders in the U.S. discuss opportunities for those interested in academic exchanges or careers at U.S.-based German companies.

UAS7, an alliance of seven German Universities of Applied Sciences, in partnership with Osnabrack University of Applied Sciences, a UAS7 member, will bring its unique expertise in applied science education to the University of Southern Indiana.

We invite students, alumni and U.S.-based German businesses as well as interested parties to join us for the event.

The event will conclude with an informal reception.

For more information, please visit uas7.org, or email Patrizia Nobbe, Executive Director, New York office of UAS7: nobbe@uas7.org

RSVP kindly requested to: https://bit.ly/2GFvhpS

Wunderbar Together

This event is part of a series of five events within Wunderbar Together, the Year of German-American Friendship 2019. Learn about Germany’s leading role in university-industry collaboration, dual-study programs, apprenticeships, and educational concepts of applied teaching and research. Further events take place in Huntsville, AL; Clemson, SC; Wichita, KS; and Pittsburgh, PA.

University of Southern Indiana (USI)

Founded in 1965, USI enrolls over 11,000 dual credit, undergraduate and graduate students in more than 130 areas of study. A public higher education institution, USI offers programs through the College of Liberal Arts, the Romain College of Business, College of Nursing and Health Professions, and the Pott College of Science, Engineering, and Education. USI is a Carnegie Foundation Community Engaged University and offers continuing education and special programs to more than 20,000 participants annually through Outreach and Engagement. The University offers study abroad opportunities in more than 60 countries, and is host to international students from around the globe.

Osnabrück University of Applied Sciences

With 14,000 students, around 100 degree programs on Bachelor and Master level and a focus on applied teaching and research Osnabrück University of Applied Sciences is one of the leading universities of its kind in Germany. The high employability rate after graduation illustrates our commitment to future-oriented programs of professional relevance in engineering and computer science, life sciences, business management and social sciences.

Both universities share a long-standing relationship of successful and fruitful cooperation in student and faculty exchange.
